Recovery Procedure

IMPORTANT

- After performing the recovery procedure, this product is returned to its factory shipped condition.
- For recovery, a keyboard on the market and a DVD drive unit are required. For recovery of the main unit not built in DVD drive unit, a DVD-ROM drive unit on the market is also required.

- (1) Turn on the power of the main unit and immediately press the [F2] key to enter the BIOS setup screen.
Insert the Recovery media into the DVD-ROM drive.
- (2) On the [Boot] menu, move the name of the DVD drive inserted the Recovery Media to the top of the screen using the [+] key or the [-] key.
- (3) Press the [F10] key and select [Yes] for [Save configuration changes and exit now?] to save the settings and restart the main unit.
- (4) After the main unit restarts, the Symantec Ghost™ will automatically start.
- (5) After the Symantec Ghost™ starts, the [Question] dialog box will appear. "Partition sizes correct?"
- (6) The volume displayed in New Size will be recovered. After confirming it, press the [Yes] button.
To change it, press the [No] button and go to the [Destination Drive Details] dia-

- log box. In the [Destination Drive Details] dialog box, change the size of the New Size and press the [OK] button.
- (7) The [Question] dialog box will appear. Press the [Yes] button.
It will be reconfirmed that this product is all reset to the original values at the time of delivery.
"Proceed with disk restore? Destination drive will be permanently overwritten."
- (8) The recovery program will start. After the recovery operation finishes, the Symantec Ghost™ also will finish. When the message "Please turn off computer" displayed, turn off the power of the main unit.
- (9) Turn on the power of the main unit again and immediately press the [F2] key to enter the BIOS setup screen.
- (10) Press the [F9] key and select [Yes] for [Load default configuration now?] to set the BIOS setting to the factory setting.
- (11) Press the [F10] key and select [Yes] for [Save configuration changes and exit now?] to save the BIOS settings and restart the main unit
- (12) After the main unit restarts, follow the instructions on the screen and set up your OS.
