# How to Install

---

1. Download the following data from download page of “Microsoft Visual C++ Redistributable Package” and execute it. File name may be changed by Microsoft.

Installation of this module may fail if your product status doesn't require it to be installed.

## Microsoft Visual C++ Redistributable Package

<https://learn.microsoft.com/en-US/cpp/windows/latest-supported-vc-redist?view=msvc-170>

vc\_regist.x86.exe

2. Execute the “dpinst.exe” in Display Communication USB Driver for FP6.zip.
3. Execute Setup.exe.
4. Restart your product.
